Behind Oryx ERP stands a dedicated team of tech pioneers and industry experts with over a decade of experience in AI-driven ERP solutions. We combine deep expertise in finance, HR, Sales & CRM, Manufacturing, Helpdesk & Project Management and supply chain management with a commitment to your success, offering 24/7 support to ensure seamless adoption. At our core, we believe in building technology that works for you—smarter, faster, and more intuitively.

"We don't just develop software—we power

## Our services

Oryx ERP provides end-to-end business management tools built for scaling companies. Whether you need to automate payroll, optimize inventory, or unify customer data, our user-friendly platform delivers powerful functionality without the complexity—helping you work smarter from day one.

Our team of ERP specialists is here to transform your business operations today for a digitally empowered future.

# Why Oryx ERP?

Transform your business with Oryx ERP, a next-generation platform designed to automate workflows, enhance decision-making, and drive growth. Whether you're an SME or a large enterprise, our flexible, secure, and intelligent ERP adapts to your needs.

## Key Benefits:

- ✓ **Boost Efficiency** – Automate repetitive tasks and reduce manual errors.
- ✓ **Enterprise-Grade Security** – Role-based access, audit logs, and GDPR-compliant data protection.
- ✓ **Deploy Anywhere** – Cloud or on-premise—your choice.
- ✓ **Smart Insights** – AI-powered analytics for real-time business intelligence.
- ✓ **Seamless Connectivity** – Integrate with banking, e-commerce, and government systems effortlessly.

## HRMS

### Empower Your Workforce with AI-Driven HR Tools

Streamline HR processes from recruitment to retirement with Oryx HRMS:

- **Digital Employee Records:** Centralized, secure, and easy-to-access.
- **Auto-Payroll & Tax Compliance:** Error-free salary processing.
- **Smart Attendance:** Biometric/Facial recognition integration.
- **Maintains department hierarchies,** reporting structures, and role definitions.
- **Manages resignation processes,** exit interviews, and final dues settlement.

## Finance & Accounting

### Transparency.AI-Driven Intelligence.

- Organize and maintain the structure of accounts for financial reporting and tracking.
- Automated invoicing, multi-currency support, and real-time GL updates.
- Define budgets, compare actuals vs. budget, and perform financial forecasting. Bank reconciliation in seconds.
- Record and reconcile transactions between different entities or branches within the organization.

## Employee Self-Service Portal

### Your Workforce, Empowered

Give employees control with a mobile-friendly self-service portal:

- Apply for leave, check pay slips, and access HR policies anytime.
- Submit travel requests and expense reimbursement claims with attachments.
- Paperless onboarding & digital document submission.

Receive reminders for approvals, announcements, and upcoming deadlines.

## Sales Management
